

Public Utilities

Page Intentionally Left Blank

Public Utilities

The Public Utilities Department provides water, wastewater, and recycled water services to approximately 1.3 million water customers and 2.5 million wastewater customers within the San Diego region. The Department's Capital Improvement Program (CIP) supports the infrastructure for reliable water supply and wastewater collection and treatment. The water system extends over 404 square miles with demands of approximately 172 million gallons per day (mgd). This system includes 49 water pump stations, 29 treated water storage facilities, three water treatment plants, and over 3,000 miles of pipelines. The Department also manages the recycled water system, which includes three pump stations and over 80 miles of purple pipe delivering an annual average of over 10 mgd for irrigation, manufacturing, and other non-potable uses. The wastewater system consists of the Municipal (Muni) System and Metropolitan (Metro) System. The Muni System consists of approximately 3,000 miles of pipelines and 79 sewer pump stations including East Mission Gorge Pump Station, Sewage Pump Station No. 64, Sewage Pump Station No. 65, and Peñasquitos Pump Station, and is primarily used to collect and convey wastewater from residences and businesses in the City of San Diego. The Metro System consists of three wastewater treatment plants, one biosolids processing facility, four large pump stations, and two outfalls, and provides treatment and disposal services for the City and 12 other agencies and districts within a 450 square mile area stretching from Del Mar to the north, Alpine and Lakeside to the east, and San Ysidro to the south.

Funding for water and wastewater projects are provided by a variety of sources which can include bond financing, water and sewer rates, state revolving fund loans, and grants. Approximately 34 percent of all Metro Fund expenditures are funded by Participating Agencies. The CIP program includes water projects mandated in the Compliance Order from the California Department of Public Health (CDPH); these projects will meet the requirements of the federal Safe Drinking Water Act. The Environmental Protection Agency (EPA) Consent Decree projects for the wastewater system are expected to complete in Fiscal Year 2014. The Department, however, will continue to provide for the needed replacement/rehabilitation of aging infrastructure in compliance with the Clean Water Act.

2014 CIP Accomplishments

The Public Utilities Department, in cooperation with the Public Works Department, oversees the design and construction of water, wastewater, and recycled water projects. Fiscal Year 2014 project highlights are detailed below:

The Department is mandated by the CDPH Compliance Order to award 10 miles of cast iron water main replacement in Fiscal Year 2014 as well as completing the EPA Consent Decree projects by December 31, 2013. As of December 31, 2013, a total of 10.93 miles of cast iron water mains have been awarded and the remaining sewer pump stations and trunk sewers were completed within their required timeframe. In addition, the Department has completed 7.55 miles of sewer main replacement, rehabilitation and repair between July 1, 2013 and December 31, 2013.

Construction was completed on the Palm Avenue Emergency Meter Cast Iron Replacement project in the Otay Mesa community area. This project replaced all cast iron piping within the Palm Avenue pressure reducing station and installed two new flow meters. The new flow meters will better serve the needs of both water operations and the billing office by having telemetry capability, which allows real-time consumption monitoring.

Construction was completed on Water Group Job 941 for the replacement of approximately 2,428 linear feet (0.46 miles) of existing 16-inch cast iron water mains with 12-inch polyvinyl chloride (PVC) pipes in the Mid-City community area. This project will improve service reliability, upgrade the system to current standards, and reduce maintenance requirements.

Public Utilities

Construction was completed on the Montezuma Trunk Sewer project in the College area. This project replaced approximately 8,310 linear feet (1.57 miles) of existing 10-inch, 12-inch, and 15-inch vitrified clay pipes with 18 and 21-inch trunk sewers. A portion of this project was installed by tunneling. The improvements will increase capacity and reduce future maintenance costs.

Construction was completed on the Balboa Terrace Trunk Sewer project in the Clairemont Mesa area. This project replaced approximately 4,991 linear feet (0.95 miles) of existing 15 and 18-inch vitrified clay pipes with 18 and 21-inch trunk sewers. About 0.3 miles of this project was installed by tunneling. This project also abandoned approximately 0.61 miles of existing 15 and 18-inch trunk sewers. The improvements will increase capacity and service reliability, while reducing future maintenance costs.

Construction was completed on the Sewer Pump Station Group II project which consisted of the replacement of pumps and motors, upgrades to the control system, and installation of a redundant force main pipeline and emergency storage tank, including emergency generators at sewer pump stations 43, 44, 47, 51 and 60A. These pump stations are located from the Scripps Miramar Ranch to Mira Mesa, Mission Bay Park and Otay Mesa areas. The improvements will increase capacity, redundancy, service reliability, and minimize future maintenance costs.

Construction was completed on the Sewer Pump Station Group III project which consisted of the addition of 12 redundant force mains at sewer pump stations 44, 51, 54, 60A, 71, 73, 74, 75, 76, 80, 81 and 82. These pump stations are located from the International Border to Del Mar and Rancho Bernardo. This project also consisted of the installation of manholes, mains, and storm drain curb outlets. The improvements will increase capacity and provide redundancy.

Construction was completed on the Sewer Pump Station 84 Upgrade project which consisted of upgrading and expanding Sewer Pump Station (SPS) 84 and abandonment of SPS 62 in the Rancho Bernardo and Peñasquitos areas. The project scope consisted of rerouting the gravity sewer from the SPS 62 basin to SPS 84, increasing the pumping capabilities at SPS 84, and installing new force mains. The improvements will increase redundancy and service reliability, while reducing future maintenance costs.

In addition to the Capital Improvement Projects, the Department televised an additional 30.8 miles of sewer mains as of December 31, 2013. To date, over 1,780 miles of sewer mains have been assessed and more than 579 miles have been identified for replacement or rehabilitation.

2015 CIP Goals

The Public Utilities Department's goal is to provide safe drinking water to the 1.3 million residents of San Diego, and regional wastewater treatment and disposal services for 2.5 million wastewater customers in the San Diego region.

In order to improve its aging infrastructure, the Department plans to replace and rehabilitate a total of 45 miles of sewer mains and award 30 miles of water pipeline replacements per fiscal year.

The Department will continue to replace all remaining distribution cast iron water mains. In addition, the Department has initiated a condition assessment program for 2,100 miles of AC water pipeline to determine the appropriate replacement rate over the next 10 years. On the wastewater side, the Department will use the sewer condition assessment results to determine the appropriate number of replacement and rehabilitation miles per year.

Public Utilities

The Department has developed a proactive condition assessment program to evaluate the condition of water transmission lines, reservoirs, and large diameter wastewater pipelines.

Additionally, the Department plans to award the construction contract for the Environmental Monitoring & Technical Services Boat Dock project; and will work with the Environmental Services Department and the Public Works Department to award a design-build contract to implement a solar energy project at the Metropolitan Operation Complex and the Bay View Reservoir.

30th Street Pipeline Replacement / S12010

Water - Distribution Sys - Transmission

Council District:	3, 8	Priority Score:	93
Community Plan:	Greater North Park, Greater Golden Hill, Southeastern San Diego	Priority Category:	High
Project Status:	Continuing	Contact Information:	Garcia, Alex
Duration:	2014 - 2019		619-533-3634
Improv Type:	Replacement		agarcia@sanidiego.gov

Description: This project will replace approximately 5.45 miles of existing cast iron (CI) mains from Polk Avenue to Commercial Street. Also, it will update the transmission and distribution system in the University Heights (390 Zone) to better suit its current and future needs.

Justification: Because the pipeline has been paralleled by the newer 28th Street Pipeline south of Thorn Street and no longer serves as an important transmission route to University Heights (390 Zone), this project will replace the cast iron pipe, provide supply reliability to the south end of the 390 Zone, and improve water quality.

Operating Budget Impact: None

Relationship to General and Community Plans: This project is consistent with the Greater North Park and Greater Golden Hill Community Plans and is in conformance with the City's General Plan.

Schedule: Design is scheduled to begin in Fiscal Year 2014 and will be completed in Fiscal Year 2016. Construction is scheduled to begin in Fiscal Year 2016 and be completed in Fiscal Year 2018.

Summary of Project Changes: The total project cost increased by \$5.4 million due to revised requirements.

Improv Type: Expansion	hazar@sandiego.gov

Description: This project will construct a new pump station at the corner of 69th Street and Mohawk Street. The new pump station will feed the 645 Redwood Village Zone. Suction to the pump station will come from the Mid-City Pipeline Phase II.

Justification: This project will replace the existing Montezuma Pump Station for Redwood Village which is reaching the end of its lifecycle.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with College Area and Mid City: Eastern Area Community Plans and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2014 and will be completed in Fiscal Year 2016. Construction is scheduled to begin in Fiscal Year 2017 and be completed in Fiscal Year 2018.

Summary of Project Changes: The total project cost increased by \$5.7 million due to revised requirements.

Duration: 2012 - 2021
Improv Type: Replacement

Water - Distribution Sys - Transmission

Priority Score: 92
Priority Category: Medium
Contact Information: Rubalcava, Eric
 858-654-4284
 erubalcava@saniego.gov

Description: This project provides for the replacement of the aging Kearny Mesa Pipeline transmission route with a new transmission route that uses the Alvarado 2nd Pipeline. It will replace 17,032 linear feet of existing 20-inch and 16-inch cast iron Morena Boulevard Pipeline with a new 36-inch Morena Boulevard Pipeline, which will run from the end of the 48-inch Alvarado 2nd Extension Pipeline and connect to the Kearny Mesa Pipeline at the north end, operating at a 536 Hydraulic Grade Line (HGL). It will also replace 15,598 linear feet of parallel 16-inch distribution line from Friars Road and Morena to Morena and Balboa Avenue. The new 16-inch line will operate at 390 HGL connecting to the existing 16-inch line on Friars Road and terminating at Morena and Bunker Hill Street. Additionally, it is proposed that 22,504 linear feet of new 48-inch Alvarado 2nd Extension Pipeline from the western terminus of the existing 48-inch Alvarado 2nd Pipeline (at Interstate 805 and Friars Road to Morena Boulevard and Napa Street) be built.

Justification: This project will replace cast iron pipe; provide redundant transmission to the coastal zones of La Jolla and Pacific Beach for supply reliability; improve water quality; reduce energy waste at the Miramar County Water Authority Pump back facility; reduce peaking problems in the Miramar Water Treatment Plant service area; and provide supply flexibility (Alvarado vs. Miramar). This project is part of a larger plan to improve transmission reliability to the coastal Pacific Beach/La Jolla Zones by replacing the aging Kearny Mesa Pipeline as the lead supply, and adding a second transmission route to the coastal zones.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Mission Valley, Linda Vista, and Mission Bay Park Community Plans and is in conformance with the City's General Plan.

Schedule: Design is scheduled to begin in Fiscal Year 2016 and will be completed in Fiscal Year 2018. Construction is scheduled to begin in Fiscal Year 2018 and be completed in Fiscal Year 2021.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

Alvarado WTP Upgrade & Expansion / S00021

Bldg - Water - Treatment Plants

Council District: 7	Priority Score: N/A
Community Plan: Navajo	Priority Category: N/A
Project Status: Warranty	Contact Information: Asgharzadeh, Iraj
Duration: 1999 - 2015	619-533-5105
Improv Type: Expansion	iasgharzadeh@sandiego.gov

Description: This project increases the treatment capacity of the Alvarado Water Treatment Plant (WTP) from 150 million gallons of water per day (mgd) to 200 mgd and upgrades the existing treatment plant facilities to replace aged equipment to comply with new drinking water regulations. This project is split into multiple construction projects and will be phase funded. The major project components consist of the construction of two new sedimentation basins, the rehabilitation of existing 1950s-era sedimentation basins, the rehabilitation of the mechanical equipment and controls on the filters, ozone generation, and treatment facilities. Various site and landscaping improvements will also be made.

Justification: The Safe Drinking Water Act, Environmental Protection Agency regulations, and a Department of Public Health Compliance Order dictate the need to upgrade the treatment plant process and equipment. Anticipated future demands within the Alvarado Water Service Area also require the plant to be expanded to 200 mgd, allowing for better utilization of the raw water storage in the San Vicente and El Capitan Reservoirs.

Operating Budget Impact: The upgrade from chlorine to ozone, as the primary disinfectant, will have a significant impact on the electrical and chemical consumption of the plant. The increase in treated water capacity and the technical aspect of the equipment will also impact the cost for maintaining and operating the plant.

Relationship to General and Community Plans: This project is consistent with the Navajo Community Plans and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 1999 and has continued through subsequent phases of work. Construction began on the initial phase of work in Fiscal Year 2004 and was completed in Fiscal Year 2014. Alvarado WTP - Flow Control Facility #12 has been postponed indefinitely until water demand increases.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$100,000 from this project to Water Main Replacement, AKB00003. This project is complete and will be closed by the end of the fiscal year.

Bldg - MWWD - Pump Stations

Priority Score: N/A
Priority Category: N/A
Contact Information: Alspaugh, Thomas
 858-654-4493
 talspaugh@sandiego.gov

Description: This project will purchase seven generators and provide a design-build contract to install the generators and associated equipment for permanent power connection to existing sewer Pump Stations 1, 64, 65, Penasquitos, North City Reclamation Plant, and Environmental Monitoring Technical Services laboratory. Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: This project is necessary to prevent environmental damage from sewer spills and prevention of permit violation issues when regional electrical black-outs occur.

Operating Budget Impact: None

Relationship to General and Community Plans: This project is consistent with the University, Miramar Ranch North, Barrio Logan, and Torrey Pines Community Plans and is in conformance with the City's General Plan.

Schedule: Engine procurement began in late Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2014. Design-build contract began in Fiscal Year 2013 and is scheduled to be completed in Fiscal Year 2015.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

Balboa Terrace Trunk Sewer / S12035

Wastewater - Collection Sys - Trunk Swr

Council District: 6	Priority Score: N/A
Community Plan: Clairemont Mesa	Priority Category: N/A
Project Status: Warranty	Contact Information: Gamboa, Wendy
Duration: 1999 - 2015	619-235-1971
Improv Type: Replacement	wgamboa@sandiego.gov

Description: This project includes the installation of 8-inch, 15-inch, and 21-inch sewer pipe via tunneling and open trench construction and other related work.

Justification: This project will upgrade the existing trunk sewer with a larger pipe to accommodate additional flow in the future.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Clairemont Mesa Community Plan and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2010 and was completed in Fiscal Year 2012. Construction began in Fiscal Year 2013 and was completed in Fiscal Year 2014.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015. Additional project total reflects sublet conversion from MWWD Trunk Sewers.

Barrett Flume Cover / S10013

Bldg - Water - Reservoirs/Dams

Council District: Non-city	Priority Score: 83
Community Plan: Non City	Priority Category: Medium
Project Status: Continuing	Contact Information: Rubalcava, Eric
Duration: 2010 - 2021	858-654-4284
Improv Type: Replacement	erubalcava@sandiego.gov

Description: This project will assess the 10 to 12 miles of open channel delivering water from the Barrett Reservoir to the Lower Otay Reservoir. Based on the assessment, the flume will be covered or replaced.

Justification: Each year golden eagles, deer, and other wildlife drown in the open channel sections of the Barrett Flume. There is also an excessive maintenance burden to keep soil and sediment out. Additionally, there is a slight algae build up due to sunlight. Covering the open flume sections is necessary to prevent fines and sanctions from the resource agencies, to maintain water quality, and to reduce maintenance and down time.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is outside of the City limits and there is no community planning area. This project is in conformance with the City's General Plan.

Schedule: Planning began in Fiscal Year 2013. Design is scheduled to begin in Fiscal Year 2015. Construction is estimated to begin in Fiscal Year 2017 and end in Fiscal Year 2021.

Summary of Project Changes: The total project cost has decreased by \$441,663 due to revised requirements.

Bayview Reservoir Solar Project / S14021

Bldg - Other City Facility / Structures

Council District: 1	Priority Score: 90
Community Plan: La Jolla	Priority Category: High
Project Status: New	Contact Information: Hwang, Guann-Jiun
Duration: 2014 - 2015	858-292-6476
Improv Type: Expansion	ghwang@sandiego.gov

Description: This project includes the design, installation, and interconnection of a 450 kilowatts (kw) solar photovoltaic system on the deck of the Bayview Reservoir.

Justification: Project complies with the City's Solar Implementation Plan and will provide enough solar electricity to supply approximately 75-80% of the facility pump stations electricity when averaged over the year.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

Schedule: The project will be designed and constructed under the City's as-needed solar design/build contract. Design began and is scheduled to be completed in Fiscal Year 2014. Construction is scheduled to begin and be completed in Fiscal Year 2015.

Summary of Project Changes: In Fiscal Year 2014, it is anticipated that \$325,000 will be transferred from the Energy Conservation Fund to this project.

Catalina 12inch Cast Iron Mains / S12008

Council District: 2	Priority Score: 98
Community Plan: Peninsula	Priority Category: High
Project Status: Continuing	Contact Information: Garcia, Alex
Duration: 2014 - 2019	619-533-3634
Improv Type: Replacement	agarcia@sandiego.gov

Description: This project will replace and install approximately 16,000 linear feet of existing cast iron (CI) pipeline (size varies) with PVC pipeline and cement mortar lined and coated steel pipeline (CMLCS) on Catalina Blvd. The scope of work includes but is not limited to replacing the Catalina Pump Station 16-inch CI discharge pipeline with a 16-inch CMLCS pipeline; installing a 24-inch CMLCS from the proposed 16-inch CMLCS pump station discharge pipeline to the proposed Catalina Standpipe inlet; installing a 16-inch PVC from Catalina Standpipe to DuPont Street; and installing a 24-inch CMLCS pipeline from Catalina Standpipe to Garden Lane.

Justification: This project will replace cast iron pipe, provide supply reliability to the Catalina Pump Station service area, and improve water quality.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2014 and will be completed in Fiscal Year 2016. Construction is scheduled to begin in Fiscal Year 2016 and be completed in Fiscal Year 2018.

Summary of Project Changes: The total project cost increased by \$1.0 million due to revised requirements.

Cielo & Woodman Pump Station / S12012

Council District: 4
Community Plan: Southeastern (Encanto Neighborhoods)
Project Status: Continuing
Duration: 2014 - 2019
Improv Type: Expansion

Bldg - Water - Pump Stations

Priority Score: 90
Priority Category: High
Contact Information: Azar, Hossein
 619-533-4102
 hazar@sandiego.gov

Description: This project provides for the replacement of the Cielo and Woodman Pump Station (PS) with a new PS with 12 million gallons per day (mgd) capacity to improve efficiency and reliability, and allow for substitution of Alvarado City water (536 Zone) which is now provided via the County Water Authority (CWA) #19 Paradise Mesa Crosstie. It will replace two 12-inch and 16-inch cast iron distribution mains. The first main is on Imperial and Woodman Street and the second main is on Skyline Drive to Cielo Drive. It will install a dedicated Alvarado 536 line from the intersection of Imperial Avenue and Woodman Street to the new upgraded Cielo and Woodman PS.

Justification: This project will replace a deteriorating pump station facility and cast iron mains that lead to the station. According to year 2030 demands, the Otay Water Treatment Plant (WTP) will not be able to supply enough suction head to the pump station. Thus, the pump station would need to be supplied from the Alvarado Water Treatment Plant (WTP).

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Southeastern (Encanto Neighborhoods) Community Plan and is in conformance with the City's General Plan.

Schedule: Design is scheduled to begin in Fiscal Year 2015 and will be completed in Fiscal Year 2016. Construction is scheduled to begin in Fiscal Year 2017 and be completed in Fiscal Year 2019.

Summary of Project Changes: The total project cost increased by \$200,001 due to revised requirements.

Project Status: Warranty	Contact Information: Amen, Rania
Duration: 2011 - 2015	619-533-5492
Improv Type: Replacement	ramen@sandiego.gov

Description: This project consists of the installation of approximately 1,199 linear feet of 16-inch water mains, 155.03 linear feet of 8-inch water mains, and relocation of several water services and fire hydrants within the following streets: Via Capri, Via Avola, Caminito Rialto, Caminito Avola, and within the existing water easement adjacent to the Colony Hill Home Owners Association Clubhouse.

Justification: This project is a result of a settlement agreement between the City of San Diego and the Colony Hill HOA in July 2010. The City of San Diego is responsible to complete the construction within two years from the date of the settlement.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

Schedule: Planning started in Fiscal Year 2011 and was completed in Fiscal Year 2012. Design and construction began in Fiscal Year 2012 and was completed in Fiscal Year 2014 after completing the easement acquisition process.

Summary of Project Changes: This project is complete and will be closed by the end of the fiscal year.

Description: This annual allocation provides for rehabilitating and reconstructing improvement projects at reservoirs and dams. Projects include resurfacing access roads, reconstructing berms, installing lighting around dams, and sandblasting and shotcreting all exposed surfaces of the dams.

Justification: The rehabilitation and reconstruction of access roads and the upgrading of berms, lighting, and all exposed surfaces of the dams are necessary to maintain access to and safety in the dam area. The State required improvements will also serve to satisfy a portion of the Division of Safety of Dams.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is in compliance consistent with applicable community plans and is in conformance with the City's General Plan.

Schedule: Projects will be scheduled on a priority basis.

Summary of Project Changes: The annual project cost for Fiscal Year 2015 decreased by \$1.6 million due to revised requirements.

Del Mar Heights East Segment / S12017

Council District: 1	Priority Score: 83
Community Plan: Del Mar Mesa	Priority Category: Low
Project Status: Continuing	Contact Information: Rubalcava, Eric
Duration: 2012 - 2020	858-654-4284
Improv Type: Expansion	erubalcava@sandiego.gov

Description: This project provides for the installation of 2,800 feet of 36-inch pipe segments and 3,668 feet of parallel pipeline between Mona Lane and Lopiella Meadows Place for redundancy.

Justification: This pipeline was built in 1961 and has experienced leaks. It is in poor condition and has no corrosion protection. The original pipe was a 30-inch Steel Cylinder Rod Wrapped (SCRW) pipeline. This size is too small to meet projected demand increases in the area.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Del Mar Mesa Community Plan and is in conformance with the City's General Plan.

Schedule: Design has been re-scheduled to begin in Fiscal Year 2016 and will be completed in Fiscal Year 2017. Construction is scheduled to begin in Fiscal Year 2018 and be completed in Fiscal Year 2020.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$50,000 from this project to Water Main Replacement, AKB00003. The total project cost decreased by \$50,000 due to revised requirements.

Del Mar Heights Pipeline Relocation / S00070

Council District: 1	Priority Score: N/A
Community Plan: Del Mar Mesa	Priority Category: N/A
Project Status: Continuing	Contact Information: Wilson, Leonard
Duration: 2005 - 2019	619-446-5421
Improv Type: Expansion	llwilson@sandiego.gov

Description: This project will provide for the relocation and upsizing of an existing 36-inch pipeline in the ultimate right-of-way for Carmel Valley Road. The existing Del Mar Heights Pipeline will no longer follow the alignment of Carmel Valley Road, once Carmel Valley Road is improved to four lanes.

Justification: Future maintenance of this facility is enhanced when it is in an accessible and convenient location such as a public street right-of-way. This project will relocate the pipeline so that it can be easily maintained, repaired, and serviced in the future.

Operating Budget Impact: None.

Water - Distribution Sys - Distribution

Relationship to General and Community Plans: This project is consistent with the Del Mar Mesa Community Plan and is in conformance with the City's General Plan.

Schedule: Design was completed in Fiscal Year 2012. Phase 1 construction (Del Mar Heights Road from the West Community Plan boundary to Carmel Valley Road and includes the bridge by-pass) began in Fiscal Year 2013 and is scheduled to be completed in Fiscal Year 2016. Phase 2 (Carmel Valley Road to Costa Del Sol) is contingent upon Public Facilities Financing Program approval and is planned for future years.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

EAM ERP Implementation / S14000

Council District: Citywide
Community Plan: Citywide
Project Status: Continuing
Duration: 2013 - 2019
Improv Type: Replacement

Bldg - Other City Facility / Structures

Priority Score: 85
Priority Category: High
Contact Information: Arnold, Jane
 858-614-4569
 jarnold@sandiego.gov

Description: This project provides for the establishment of an integrated, real-time SAP ERP Enterprise Asset Management software solution that builds upon the existing Citywide SAP ERP platform. The major Public Utilities legacy maintenance and asset management systems to be replaced within scope of this project are Sewer Water Infrastructure Management, Enterprise Maintenance Planning And Control, and Planner, Scheduler (PS) Tools. Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: A comprehensive maintenance management system is required to appropriately manage the complex asset infrastructure needed to provide water and wastewater services to the San Diego region and to provide sophisticated asset capital planning activities to ensure future needs are met. The SAP ERP Enterprise Asset Management (EAM) Implementation is a strategic project for investment in, and support of, the Citywide SAP ERP System for the City of San Diego which will provide the cornerstone EAM solution, Citywide.

Operating Budget Impact: None

Relationship to General and Community Plans: This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

Schedule: This project schedule will follow the Accelerated SAP methodology for the project's life cycle. It will use the standardized work breakdown structure (WBS) that provides the foundation for defining implementation project work in a deliverable-oriented, hierarchical manner in order to manage the project work to completion. The project duration is estimated at four years.

Summary of Project Changes: It is anticipated that the project will receive \$1.1 million in OneSD Support Funds from the Enterprise Asset Management project (S13013) as the projects are being merged. The total project cost increased by \$10.9 million as a result of revised project scope requirements. Refinement of the project scope allowed more detailed analysts of actual budget requirements.

EMT&S Boat Dock and Steam Line Relocation / S00319

Bldg - MWWD - Laboratories

Council District: 2	Priority Score: 81
Community Plan: Peninsula	Priority Category: Medium
Project Status: Continuing	Contact Information: Elling, Michael
Duration: 2012 - 2016	858-292-6477
Improv Type: New	melling@sandiego.gov

Description: The Environmental Monitoring and Technical Services (EMTS) Laboratory Boat Dock and Steam Line Project provides for the design and construction of a boat dock located in the channel adjacent to the EMTS laboratory, as well as the installation of an esplanade and undergrounding of approximately 600 feet of an above-ground steam line situated along the frontage of the boat channel. Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: As part of a Public Benefit Conveyance (PBC) from the federal government, MWWD designed and constructed a 40,000 square foot ocean monitoring laboratory which is now in operation. The design of this project included a boat dock to service the laboratory. Permits obtained as part of the construction required Metro to fund a portion of a future park esplanade located adjacent to the laboratory frontage. To gain future unobstructed access to the boat dock, and to provide unobstructed access to the future esplanade, the existing steam line must be undergrounded. Public Utilities currently leases boat dock space at Driscoll's Wharf and this project would eliminate this ongoing expense.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

Schedule: The dock was partially designed in Fiscal Year 2001, but was postponed due to ongoing issues related to the contamination and conveyance of the boat channel. The design is scheduled to begin and be completed in Fiscal Year 2014, with construction scheduled to begin in Fiscal Year 2015 and be completed in Fiscal Year 2016.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

East Point Loma Trunk Sewer / S00329

Wastewater - Collection Sys - Trunk Swr

Council District: 2	Priority Score: N/A
Community Plan: Peninsula, Midway - Pacific Highway	Priority Category: N/A
Project Status: Warranty	Contact Information: Spier, Carl
Duration: 2001 - 2015	619-533-5126
Improv Type: Replacement	cspier@sandiego.gov

Description: Construction consists of the rehabilitation of approximately 4,932 feet of 27-inch & 3,229 feet of 30-inch trunk sewer mains, the rehabilitation of sewer manholes, and sewer laterals connections, and all other work and appurtenances necessary to complete the work. The affected streets are Nimitz Boulevard, Barnett Avenue, and Cushing Road between Nimitz Boulevard and Barnett Avenue.

Justification: The existing system is almost 60 years old and needs to be rehabilitated.

Operating Budget Impact: None

Relationship to General and Community Plans: This project is consistent with the Peninsula and Midway-Pacific Highway Corridor Community Plans and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2004 and was completed in Fiscal Year 2011. Construction began in Fiscal Year 2011 and was completed in Fiscal Year 2013.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$623,144 from this project to Pump Station Restorations, ABP00001. This project is complete and will be closed by the end of the fiscal year.

El Capitan Pipeline #2 Valves / S10005

Council District: Non-city	Priority Score: 67
Community Plan: Non City	Priority Category: Low
Project Status: Warranty	Contact Information: Asgharzadeh, Iraj
Duration: 2010 - 2015	619-533-5105
Improv Type: Replacement	iasgharzadeh@sandiego.gov

Description: This project previously provided for a pipeline parallel to the existing 48-inch El Capitan Pipeline with 41,490 linear feet of new 54-inch pipeline. Now the project will replace the existing 48-inch butterfly valve at station 16+00 with a 48-inch plug valve and a 48-inch energy dissipater valve. It will also replace the existing 30-inch plug valve at station 17+00 with a 30-inch plug valve and a 30-inch energy dissipater valve to assist with a thorough condition assessment of the pipeline.

Justification: The existing valves are leaking and need to be replaced. The valves are part of the emergency drawdown system required by Division Safety of Dams - State Department (DSOD) for El Capitan Reservoir.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is outside of the City limits and there is no community planning area. This project is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2012 and was completed in Fiscal Year 2013. Construction began and was completed in Fiscal Year 2013.

Summary of Project Changes: This project is complete and will be closed by the end of the fiscal year.

Public Utilities

La Jolla Scenic Drive 16inch Main / S12009

Council District: 1	Priority Score: 82
Community Plan: La Jolla	Priority Category: Low
Project Status: Continuing	Contact Information: Rubalcava, Eric
Duration: 2012 - 2017	858-654-4284
Improv Type: Replacement	erubalcava@sandiego.gov

Description: This project provides for replacement of 6-inch, 8-inch, and 12-inch pipelines with 15,635 linear feet of 16-inch pipe from the Soledad Reservoir that travels south along La Jolla Scenic Drive South; continues onto La Jolla Rancho Road, La Jolla Mesa Drive, Muirlands Drive, and El Camino Del Teatro; rejoins Muirlands Drive and Nautilus Street; and terminates at Fairway Road and the Muirlands Pump Station (PS). It will connect the Muirlands PS to the south Soledad Muirlands (725 Zone) to provide backup supply to the 725 Zone, and to solve fire flow deficiency and maintain peak pressures.

Justification: The current distribution grid has insufficient capacity to meet fire flow requirements, and is a bottleneck that leads to two isolated portions of the 725 Zone. If either of the pump/reservoir tandems that feed the zone go out of service, feed from the other tandem could not effectively be moved across the zone.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

Schedule: Design is scheduled to begin in Fiscal Year 2014 and be completed in Fiscal Year 2015. Construction is scheduled to begin in Fiscal Year 2015 and be completed in Fiscal Year 2017.

Summary of Project Changes: The total project cost has increased by \$146,957 due to revised requirements.

Lake Murray Trunk Sewer / S00335

Wastewater - Collection Sys - Trunk Swr

Council District: 7	Priority Score: N/A
Community Plan: Navajo	Priority Category: N/A
Project Status: Warranty	Contact Information: Spier, Carl
Duration: 2003 - 2015	619-533-5126
Improv Type: Expansion	cspier@sandiego.gov

Description: This project provides for the replacement of 15,900 linear feet (3.01) miles of existing 12-inch, 15-inch, and 18-inch diameter and installation of maintenance access pathways.

Justification: This project provides for the upsizing of the trunk sewer to meet build-out capacity.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Navajo Community Plan and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2003 and was completed in Fiscal Year 2010. Construction began in Fiscal Year 2010 and was completed in Fiscal Year 2013.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$260,000 from this project to Sewer Main Replacements, AJA00001. This project is complete and will be closed by the end of the fiscal year.

Large Diameter Water Transmission PPL / AKA00003

Council District: Citywide
Community Plan: Citywide
Project Status: Continuing
Duration: 2010 - 2020
Improv Type: Replacement

Water - Distribution Sys - Transmission

Priority Score: Annual
Priority Category: Annual
Contact Information: Hwang, Guann
 858-292-6476
 ghwang@sandiego.gov

Description: This annual allocation allows for the replacement of 16-inch and larger diameter water pipelines at various locations throughout the City.

Justification: This annual allocation provides for the replacement of large diameter pipelines that are in a deteriorated condition or have reached the end of their service life.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

Schedule: Projects will be scheduled on a priority basis.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$430,000 from this annual to Water Main Replacements, AKB00003. The annual project cost for Fiscal Year 2015 decreased by \$5.7 million due to revised requirements.

Lindbergh Field 16" CI Main Replacement / S10055

Council District: 2, 3
Community Plan: Midway - Pacific Highway
Project Status: Warranty
Duration: 2010 - 2015
Improv Type: Replacement

Water - Distribution Sys - Transmission

Priority Score: 97
Priority Category: High
Contact Information: Azar, Hossein
 619-533-4102
 hazar@sandiego.gov

Description: This project replaces 1.34 miles of pipeline and relocates the 16-inch cast iron transmission main from adjacent to the departure taxiway at Lindbergh Field to the public street which is more accessible for operation and maintenance.

Justification: In case of a pipe failure requiring Water Operations to perform emergency repair, the pipeline must be relocated to a location outside the secured Airport property that is more accessible for operation and maintenance. The 12-inch and 16-inch cast iron pipe was installed in the 1940s.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Midway-Pacific Highway Community Plan and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2010. Construction began in Fiscal Year 2013 and was completed in Fiscal Year 2014.

Summary of Project Changes: This project is complete and will be closed by the end of the fiscal year.

Little McGonigle Ranch Road Pipeline / S00069

Water - Distribution Sys - Transmission

Council District:	1	Priority Score:	70
Community Plan:	Del Mar Mesa, Pacific Highlands Ranch	Priority Category:	Low
Project Status:	Continuing	Contact Information:	Wilson, Leonard
Duration:	2004 - 2015		619-446-5421
Improv Type:	Expansion		llwilson@sandiego.gov

Description: This project provides for the construction of approximately 15,800 linear feet of 30-inch diameter water transmission pipeline in Carmel Mountain Road and Little McGonigle Ranch Road within the Del Mar Mesa and Pacific Highlands Ranch communities to provide capacity for both Del Mar Mesa and Pacific Highlands Ranch.

Justification: The pipeline is required to provide capacity in the water system to adequately supply the demand resulting from the build-out of the Del Mar Mesa and Pacific Highlands Ranch communities.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Del Mar Mesa and Pacific Highlands Ranch Community Plans and is in conformance with the City's General Plan.

Schedule: Phase 1 (Carmel Valley Road within SR-56/Carmel Valley Road Interchange within Right-of-Way) and Phase 2 (Carmel Valley Road from SR-56/Carmel Valley Road Interchange to Del Mar Heights Road) are complete. The design of Phase 3 (Little McGonigle Ranch Road from interchange to Del Mar Mesa Road) is not scheduled at this time. The design of Phase 4 (Little McGonigle Ranch Road from Del Mar Mesa Road to Devino Court) and Phase 5 (Carmel Mountain Road from Devino Court to Del Mar Mesa Community Boundary) are complete. Construction of Phases 4 and 5 is scheduled to be completed in Fiscal Year 2015, but are dependent upon the construction of the Shaw Lorenz Community.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

Lower Otay Outlet Tower / S12018

Bldg - Water - Reservoirs/Dams

Council District: Non-city	Priority Score: 90
Community Plan: Non City	Priority Category: High
Project Status: Continuing	Contact Information: Rubalcava, Eric
Duration: 2012 - 2020	858-654-4284
Improv Type: Betterment	erubalcava@sandiego.gov

Description: This project provides for the upgrade/replacement of the Lower Otay Outlet Tower.

Justification: Seismic analysis concluded that the tower's concrete has an overstress in flexural tension. Both the tower and the tower foundation are in danger of failure.

Operating Budget Impact: None

Relationship to General and Community Plans: This project is outside the City limits and there is no community planning area. This project is in conformance with the City's General Plan.

Schedule: Design is scheduled to begin in Fiscal Year 2015 and be completed in Fiscal Year 2017. Construction is scheduled to begin in Fiscal Year 2018 and be completed in Fiscal Year 2020.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$249,575 from this project to Water Main Replacements, AKB00003. The total project cost increased by \$50,000 due to revised requirements.

Lower Otay Reservoir Emer Outlet Improve / S00044

Bldg - Water - Reservoirs/Dams

Council District: 8	Priority Score: 75
Community Plan: Otay Mesa - Nestor	Priority Category: Low
Project Status: Continuing	Contact Information: Azar, Hossein
Duration: 2001 - 2015	619-533-4102
Improv Type: Betterment	hazar@sandiego.gov

Description: This project provides for the installation of two sluice gates on the auxiliary spillway to improve drawdown capacity.

Justification: The State Department of Safety of Dams requires an emergency draw-down capability of 10 percent of reservoir capacity in 10 days. Lower Otay Reservoir (backed up by Savage Dam) requires 56 days for 10 percent drawdown in order to prevent a risk of dam failure.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is outside of the City limits and there is no community planning area. This project is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2001 and will be completed in Fiscal Year 2014. Construction is scheduled to begin in Fiscal Year 2014 and be completed in Fiscal Year 2015.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

MBC Biosolids Storage Silos / S00322

Bldg - MWWD - Treatment Plants

Council District: 6	Priority Score: 74
Community Plan: Non City	Priority Category: Low
Project Status: Continuing	Contact Information: Asgharzadeh, Iraj
Duration: 2007 - 2015	619-533-5105
Improv Type: Expansion	iasgharzadeh@sandiego.gov

Description: This project provides for two additional biosolid storage silos (numbers 9 and 10). Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: When a silo is out of service, silo storage capacity is frequently exceeded. In order to accommodate such events and to restore adequate silo capacity, it is essential to build two more storage silos.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is located on federal property Miramar and there is no community planning area. This project is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2009 and was completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2014 and be completed in Fiscal Year 2015.

Summary of Project Changes: No significant change has been made for this project for Fiscal Year 2015.

MBC Dewatering Centrifuges Replacement / S00339

Bldg - MWWD - Treatment Plants

Council District: 6	Priority Score: 83
Community Plan: Non City	Priority Category: Medium
Project Status: Continuing	Contact Information: Asgharzadeh, Iraj
Duration: 2009 - 2017	619-533-5105
Improv Type: Expansion	iasgharzadeh@sandiego.gov

Description: This project provides for the replacement of six of the eight existing dewatering centrifuges with six larger capacity units to better handle biosolids flows during maintenance of the centrifuges and its associated equipment and to handle larger future biosolids flows. The existing units are also near the end of their useful life. Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: This project will increase the production capacity of the dewatering centrifuges to accommodate plant shutdowns for maintenance and construction, to accommodate future flows, and to address diverse types of constraining operational factors that limit current capacity. To achieve the required capacity, the existing dewatering centrifuge units must be replaced with larger units.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is located on federal property and there is no community planning area. This project is in conformance with the City's General Plan.

Schedule: The schedule is based on a design/build type of contract. Design is scheduled to be completed by Fiscal Year 2014, and installation of the six centrifuges is scheduled to be completed by Fiscal Year 2016.

Summary of Project Changes: No significant changes has been made for this project for Fiscal Year 2015.

MBC Odor Control Facility Upgrades / S00323

Bldg - MWWD - Treatment Plants

Council District: 6	Priority Score: 83
Community Plan: Non City	Priority Category: Medium
Project Status: Continuing	Contact Information: Asgharzadeh, Iraj
Duration: 2007 - 2016	619-533-5105
Improv Type: Expansion	iasgharzadeh@sandiego.gov

Description: This project provides for upgrading the odor control system fans and ducting to reduce system headlosses and improve overall foul air collection efficiency at the various process areas. Access platforms will also be installed at monitoring instruments locations. Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: Several areas at the Metro Biosolids Center (MBC) have been identified to cause significant odor problems due to foul air collection deficiencies because of insufficient fan capacity and high headlosses, including poorly located foul air collection registers. Installing access platforms at the monitoring instruments and air volume control dampers will provide safe and timely access for operation and maintenance needs.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is located on federal property (Miramar) and there is no community planning area. This project is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2012 and was completed in Fiscal Year 2014. Construction began in Fiscal Year 2014 and is scheduled to be completed in Fiscal Year 2015.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

 858-292-6476
 ghwang@sanidiego.gov

Description: This project includes the design, installation, and interconnection of 550 kilowatts (kw) worth of solar photovoltaics at various locations throughout the MOC Complex in Kearny Mesa.

Justification: Project complies with the City's Solar Implementation Plan and will provide solar electricity to offset energy used at the MOC Complex buildings when averaged over the year.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Kearny Mesa Community Plan and is in conformance with the City's General Plan.

Schedule: The project will be designed and constructed under the City's as-needed solar design/build contract. Design began in Fiscal Year 2014 and is scheduled to be completed in Fiscal Year 2015. Construction is scheduled to be completed in Fiscal Year 2015.

Summary of Project Changes: In Fiscal Year 2014, it is anticipated that \$975,000 will be transferred from the Energy Conservation Fund to this project.

Bldg - MWWD - Treatment Plants

Council District:	1, 2	Priority Score:	72
Community Plan:	University, Peninsula	Priority Category:	Low
Project Status:	Continuing	Contact Information:	Azar, Hossein
Duration:	2010 - 2015		619-533-4102
Improv Type:	Replacement		hazar@sandiego.gov

Description: This project provides for replacement and upgrade of existing control systems at various Metropolitan Wastewater treatment and pump station facilities. These include Metro Biosolids Center (MBC), North City Water Reclamation Plant (NCWRP), and Point Loma Water Treatment Plant (PLWTP). Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: This project is needed to provide replacement of existing control systems at various facilities. The existing control systems are microprocessor/computer-based. The life cycle of these systems is seven to 10 years. Replacement will also provide an upgrade in technology. The change in technology will provide the facilities with greater control system capabilities and are essential for future facility expansion.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the University and Peninsula Community Plans, and is in conformance with the City's General Plan.

Schedule: Design and construction began in Fiscal Year 2010 and are scheduled to be completed in Fiscal Year 2015.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

Duration:	2010 - 2021		858-292-6476
Improv Type:	Replacement		ghwang@sandiego.gov

Description: This annual allocation provides for replacement or improvements of facilities at Metro Treatment Plants: Point Loma Wastewater Treatment Plant (PLWTP), North City Water Reclamation Plant (NCWRP), South Bay Water Reclamation Plant (SBWRP), and Metro Biosolids Center (MBC). Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: Various facilities require replacement due to increasing wastewater flows and to be compliant with current regulatory requirements. This annual allocation will be considered an enhancement to the facility and does not include operation and maintenance.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Peninsula, Tijuana River Valley, and University community plans and is in conformance with the City's General Plan.

Schedule: Projects will be scheduled on a priority basis.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2015.

Project Status: Continuing	Contact Information: Hwang, Guann
Duration: 2010 - 2021	858-292-6476
Improv Type: Replacement	ghwang@sandiego.gov

Description: This annual allocation provides for comprehensive upgrades, design modifications, and renovations or replacement of equipment such as pumps, valves, tanks, controls, odor control systems, etc. at Metropolitan System Pump Stations 1, 2, Otay River and Grove Avenue. Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: These improvements will allow pump stations to run more efficiently and increase the reliability of the Metropolitan Wastewater System.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

Schedule: Projects will be scheduled on a priority basis.

Summary of Project Changes: The annual project cost for Fiscal Year 2015 increased by \$1.0 million due to revised requirements.

Description: This annual allocation provides for the replacement of trunk sewers at various locations, including canyons, within the City limits. Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: This annual allocation provides for the upgrading of trunk sewers, to improve the level of service to residents of the City of San Diego and to comply with regulatory agencies by reducing the possibility of sewer spills.

Operating Budget Impact: None

Relationship to General and Community Plans: This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

Schedule: Projects will be scheduled on a priority basis.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$2.0 million from this annual to Sewer Main Replacements, AJA00001. Total project increased by approximately \$800,000 in Fiscal Year 2015 due to revised requirements.

Bldg - Water - Standpipes

Council District: 5	Priority Score: 100
Community Plan: Scripps Miramar Ranch	Priority Category: High
Project Status: Continuing	Contact Information: Asgharzadeh, Iraj
Duration: 2011 - 2020	619-533-5105
Improv Type: Replacement	iasgharzadeh@sandiego.gov

Description: This project will construct two new clearwells just west of the Miramar Water Treatment Plant and a lift station after the filters.

Justification: This project will replace the existing clearwells at Miramar Water Treatment Plant. The existing clearwells were determined to have significant structural issues. The lift station will improve filter performance and increase hydraulic grade line to 712 feet.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2013 and is scheduled to be completed in Fiscal Year 2015. Construction is scheduled to begin in Fiscal Year 2016 and to be completed in Fiscal Year 2020.

Summary of Project Changes: The total project cost decreased by \$580,724 due to revised requirements.

Miramar Contract A Roof System Redesign / S13016

Bldg - Water - Treatment Plants

Council District: 5	Priority Score: 90
Community Plan: Scripps Miramar Ranch	Priority Category: High
Project Status: Warranty	Contact Information: Garcia, Alex
Duration: 2013 - 2015	619-533-3634
Improv Type: Replacement - Rehab	agarcia@sandiego.gov

Description: This project is to replace and/or rehab the leaking roof systems on buildings at the Miramar Water Treatment Plant (WTP) facility.

Justification: The Miramar WTP is a key facility within the City's water system that supplies nearly 50 percent of the City of San Diego's treated water demand. Leaks from the failing roof systems could result in a water treatment plant shutdown, potentially leaving customers out of water service.

Operating Budget Impact: None.

Relationship to General and Community Plans: This plan is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's General Plan.

Schedule: Planning is complete. Design/build began in Fiscal Year 2013 and was completed in Fiscal Year 2014.

Summary of Project Changes: A City Council Action, (R-308712) approved the transfer of approximately \$7.0 million from this project to the Water Main Replacement, AKB00003. There is a pending transfer of \$250,000 from this project to Water Group 787, S11108 in Fiscal Year 2014. This project is complete and will be closed by the end of the fiscal year.

Miramar WTP Upgrade & Expansion / S00024

Bldg - Water - Treatment Plants

Council District: 5	Priority Score: N/A
Community Plan: Scripps Miramar Ranch	Priority Category: N/A
Project Status: Warranty	Contact Information: Asgharzadeh, Iraj
Duration: 1993 - 2015	619-533-5105
Improv Type: Expansion	iasgharzadeh@sandiego.gov

Description: This project provides for upgrades to and expansion of the Miramar Water Treatment Plant, including construction of state-of-the-art filters, rapid mix and de-aeration facilities, chlorine and chemical facilities, four flocculation and sedimentation basins, an ozone structure with generation equipment, site paving, landscaping, and an administration building.

Justification: The Safe Drinking Water Act, mandated by the Environmental Protection Agency and the Department of Public Health, dictates the need to upgrade the existing treatment plant. Increasing demands on the plant by the rapidly growing North City area also necessitate its expansion.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 1997 and continued through subsequent phases of work. Construction began on the initial phase of work in Fiscal Year 2001. All sub-phases are completed.

Summary of Project Changes: This project is complete and will be closed by the end of the fiscal year.

Project Status: Warranty	Contact Information: Spier, Carl
Duration: 2002 - 2015	619-533-5126
Improv Type: Expansion	cspier@sandiego.gov

Description: This project provides for the replacement of approximately 6,769 feet of the existing 12-inch and 15-inch trunk sewer with 21-inch pipe.

Justification: This trunk sewer will be upgraded with a larger pipe to accommodate future flow capacity.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the College Area Community Plan and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2004 with final design completed in Fiscal Year 2011. Construction began in Fiscal Year 2012 and was completed in Fiscal Year 2014.

Summary of Project Changes: This project is complete and will be closed by the end of the fiscal year.

Montezuma/Mid-City Pipeline Phase II / S11026

Water - Distribution Sys - Distribution

Council District:	7, 9	Priority Score:	98
Community Plan:	College Area, Eastern Area (Mid-City), Navajo	Priority Category:	High
Project Status:	Continuing	Contact Information:	Asgharzadeh, Iraj
Duration:	2011 - 2018		619-533-5105
Improv Type:	Expansion		iasgharzadeh@sandiego.gov

Description: This project will construct a new 66-inch pipeline from the Alvarado Water Treatment Plant Clearwells to the existing 48-inch Mid-City Pipeline, which crosses Highway 8. Approximate pipeline length is 6,505 linear feet.

Justification: This project will give complete redundancy to the Trojan Pipeline and will add transmission capacity to all of San Diego, south of Highway 8. The project will provide a back-up supply for the aging 54-inch Trojan Pipeline that currently supplies the Mid-City Pipeline west of the 63rd Street inter-tie, a second supply line to the largest region of the Alvarado Water Treatment Plant service area, and a back-up service that will allow the Trojan Pipeline to be removed from service for inspection. In addition, the project provides connections for a new 69th and Mohawk Pump Station to become the lead supply to the Redwood Village (645 Zone).

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the College Area, Navajo, and Eastern Area Community Plans and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2013 and will be completed in Fiscal Year 2016. Construction is scheduled to begin in Fiscal Year 2017 and be completed in Fiscal Year 2018.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

Morena Reservoir Outlet Tower Upgrade / S00041

Bldg - Water - Reservoirs/Dams

Council District:	Non-city	Priority Score:	90
Community Plan:	Non City	Priority Category:	High
Project Status:	Continuing	Contact Information:	Azar, Hossein
Duration:	2001 - 2016		619-533-4102
Improv Type:	Betterment		hazar@sandiego.gov

Description: This project upgrades the outlet tower to meet seismic requirements, replaces the electrical system and outlet tower piping, interior and exterior valves, and platforms. It will add a 100-foot long, 6-foot wide pedestrian bridge from the dam to the outlet tower and two sluice gates at the emergency spillway.

Justification: The aging outlet tower components are in need of replacement for safety and ease of operation. Furthermore, the electrical system needs to be upgraded to meet current standards, provide better control, and provide safety and better accessibility.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is outside of the City limits and there is no community planning area. This project is in conformance with the City's General Plan.

Schedule: Design phase began in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2015 and be completed in Fiscal Year 2016.

Summary of Project Changes: The total project cost increased by \$2.5 million due to revised requirements.

Project Status:	Continuing	Contact Information:	Azar, Hossein
Duration:	2015 - 2016		619-533-4102
Improv Type:	Replacement		hazar@sanidiego.gov

Description: This project provides for replacement and upgrade of existing control systems at Pump Station 64 and Penasquitos Pump Station.

Justification: This project is needed to provide replacement of existing control systems at various facilities. The existing control systems are microprocessor/computer-based. The lifecycle of these systems is seven to 10 years. Replacement will also provide an upgrade in technology. The change in technology will provide the facilities with greater control system capabilities and are essential for future facility expansion.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Torrey Pines and Miramar Ranch North Plans, and is in conformance with the City's General Plan.

Schedule: Design and construction will begin in Fiscal Year 2015 and is scheduled to be completed in Fiscal Year 2016.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$1.8 million from this project to Sewer Main Replacements, AJA00001. \$1.8 million will be re-budgeted for Fiscal Year 2015.

NCWRP Sludge Pump Station Upgrade / S00309

Bldg - MWWD - Pump Stations

Council District: 1	Priority Score: 82
Community Plan: University	Priority Category: Medium
Project Status: Warranty	Contact Information: Azar, Hossein
Duration: 2006 - 2015	619-533-4102
Improv Type: Replacement	hazar@sandiego.gov

Description: This project provides for the correction of a vibration problem at the North City Water Reclamation Plant (NCWRP) Sludge Pump Station. The project involves the replacement of the existing sludge pump with a smaller more efficient pump. It also includes the addition of 14 combination air release valves. Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: Excessive vibration of the pump and flywheel contribute to wear and tear of equipment. The vibration also generates tremendous heat. The excessive vibration and heat can cause premature failure of equipment, impact operational efficiency, and have structural impacts at the facility.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2009 and was completed in Fiscal Year 2014. Construction is scheduled to begin and be completed in Fiscal Year 2014.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

Reclaimed Water System - Pipelines

Priority Score: Annual
Priority Category: Annual
Contact Information: Hwang, Guann
 858-292-6476
 ghwang@sandiego.gov

Description: This annual allocation provides recycled water to the Northern Service Area extending from Black Mountain Road west, along the I-56 corridor, to Carmel Valley. Portions of the recycled water pipeline expansion have been completed and are bringing service to the Olivenhain Municipal Water District and the communities of Black Mountain Ranch and Santa Luz. Recycled water pipelines are planned in Carmel Valley, Pacific Highlands, Los Penasquitos Canyon, and Camino Del Sur. Projects under this annual allocation are eligible for reimbursement by State Proposition 50 (Integrated Regional Water Management Plan) and Bureau of Reclamation Title 16 Grant funds.

Justification: Segments of recycled water pipelines have been constructed by private developers or Caltrans. The City needs to construct the remaining portions to complete the system and start delivering recycled water. The City also needs to expand the distribution system to customers already retrofitted to use recycled water.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with applicable community plans and is in conformance with the City's General Plan.

Schedule: Projects are scheduled on a priority basis.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$45,015 from this annual allocation to Water Main Replacements, AKB00003.

Description: This project will abandon approximately 13,630 feet of aged 30-inch and 36-inch pipes, identified as Otay 1st and 2nd water transmission pipelines. These pipelines sections will be abandoned from Highland Avenue and Wightman Street east to 54th Street. This project will also install approximately 8,120 feet of new 16-inch distribution mains from a 12-inch line at University Avenue and Winona Avenue to 54th Street and Chollas Station Road.

Justification: This project will abandon approximately 13,630 feet of existing Cast Iron Cement Lined, Reinforced Concrete Steel Cylinder and Cement Mortar Lined Coated Steel pipes in accordance with California Department of Public Health's compliance order 04-14-96CO-022. These pipelines, constructed as early as 1915, have reached the end of their lifecycle and have become a liability to the City. In order to provide system redundancy and maintain distribution needs, approximately 8,120 feet of new 16-inch distribution mains will be installed.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Mid-City: City Heights and Eastern Area Community Plans and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2014. Construction is scheduled to begin in Fiscal Year 2014 and be completed in Fiscal Year 2015.

Summary of Project Changes: No significant change has been made to this project in Fiscal Year 2015.

Otay 1st/2nd PPL West of Highland Avenue / S12016

Council District:	3, 9	Priority Score:	91
Community Plan:	Greater North Park, Mid-City: City Heights	Priority Category:	Medium
Project Status:	Continuing	Contact Information:	Asgharzadeh, Iraj
Duration:	2012 - 2020		619-533-5105
Improv Type:	Replacement		iasgharzadeh@sanidiego.gov

Description: This project provides for replacement of the Otay 1st and 2nd Pipeline (west of Highland Avenue, along the existing Otay 2nd alignment). It will replace 14,572 linear feet of existing cast iron Otay 2nd Pipeline with a new 42-inch Wightman Street Pipeline, primarily along existing Otay 2nd alignment from Highland Avenue and Polk Avenue to the University Heights Reservoir at Howard Avenue and Idaho Street. The reach on Highland Avenue includes replacement of 1,328 linear feet of the existing cast iron Otay 1st Pipeline. It will also replace 3,242 linear feet of the cast iron Otay 1st Pipeline from Boundary and Polk to the University Heights Reservoir with a 16-inch distribution line.

Justification: This project will develop a replacement and/or abandonment plan to remove the existing cast iron segments of pipeline west of Highland Avenue. Cast iron reaches of the Otay 1st and 2nd Pipelines are neither safe nor reliable facilities, and may contribute to poor water quality.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the City Heights and Greater North Park Community Plans and is in conformance with the City's General Plan.

Schedule: Design is scheduled to begin and be completed in Fiscal Year 2015. Construction is scheduled to begin in Fiscal Year 2016 and be completed in Fiscal Year 2020.

Summary of Project Changes: The total project cost decreased by \$393,464 due to revised requirements.

 858-292-6476
 ghwang@sandiego.gov

Description: This project provides funding to evaluate the condition of existing water pipelines and to make appropriate upgrades and replacements to the pipeline.

Justification: This pipeline was originally installed in 1928 and has exceeded its useful life expectancy of 60 years. Breaks in the pipeline have revealed severe pipe corrosion in certain locations, requiring upgrades and replacement.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Skyline-Paradise Hills and Southeastern San Diego Community Plans and is in conformance with the City's General Plan.

Schedule: Engineering studies and design began in Fiscal Year 1999 and were completed in Fiscal Year 2007. Project scheduling is contingent on the assessed condition of the pipeline.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$15,000 from this project to Water Main Replacements, AKB00003. The total project cost decreased by \$15,000 due to revised requirements.

Description: This project provides for upgrading the treatment processes at the Otay Water Treatment Plant (Phases 1 and 2) to comply with the Safe Drinking Water Act standards. The Safe Drinking Water Act is a federal act, enforced by the State of California.

Justification: New standards required by the Safe Drinking Water Act dictate the need to upgrade the existing water treatment plant standards.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is outside of the City limits and there is no community planning area. This project is in conformance with the City's General Plan.

Schedule: Otay Water Treatment Plant (WTP) Phases 1 and 2 were completed in Fiscal Year 2012. The design/build contract for the Otay WTP Concrete Work project began in Fiscal Year 2013 and was completed in Fiscal Year 2014.

Summary of Project Changes: This project is complete and will be closed by the end of the fiscal year.

Improv Type:	Replacement		hazar@sanidiego.gov

Description: This project provides for the elimination of Sewer Pump Station 62 through the installation of various pipelines and the upsizing of the existing Sewer Pump Station 84.

Schedule: Design began in Fiscal Year 2010 and was completed in Fiscal Year 2012. Construction began in Fiscal Year 2013 and is anticipated to be completed in Fiscal Year 2014.

Justification: This project is needed to optimize the sewage system and to eliminate Sewer Pump Station 62.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$3.4 million from this project to Sewer Main Replacement, AJA00001. The total project cost decreased by \$3.4 million.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Rancho Bernardo and Rancho Penasquitos Community Plans and is in conformance with the City's General Plan.

Improv Type: Replacement	hazar@sandiego.gov

Description: This project provides for the upgrade of 23 pump stations, divided into four groups, located throughout San Diego. The upgrades involve providing new and backup pumps and motors, new control panels, new generators, redundant force mains, underground storage tanks, and miscellaneous civil work.

Justification: This project will provide for the upgrading of deteriorated pump stations, improvement of the level of service to the residents of San Diego, and compliance with regulatory agencies by reducing the impact of sewer spills.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

Schedule: Group I design began in Fiscal Year 2003 and was completed in Fiscal Year 2009. Construction began in Fiscal Year 2009 and was completed in Fiscal Year 2012. Group II design began in Fiscal Year 2008 and was completed in Fiscal Year 2010. Construction started in Fiscal Year 2011 and will be completed in Fiscal Year 2014. Group III design began in Fiscal Year 2005 and was completed in Fiscal Year 2011. Construction started in Fiscal Year 2012 and will be completed in Fiscal Year 2014. Group IV design was completed in Fiscal Year 2008. Construction began in Fiscal Year 2008 and was completed in Fiscal Year 2009.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

PS2 Power Reliability & Surge Protection / S00312

Council District: 2
Community Plan: Midway - Pacific Highway
Project Status: Continuing
Duration: 2005 - 2018
Improv Type: Expansion

Bldg - MWWd - Pump Stations

Priority Score: 90
Priority Category: High
Contact Information: Azar, Hossein
 619-533-4102
 hazar@sandiego.gov

Description: This project will improve the reliability of the Pump Station 2. It will also provide the required surge protection and backup power against an electrical outage in compliance with the Environmental Protection Agency (EPA) recommendation of standby power for essential facilities. Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: Sewer Pump Station 2 currently has three feeds from San Diego Gas and Electric (SDG&E). Two of the feeds are fed from the same substation. Neither of the two SDG&E substations provide 100% power to Pump Station 2. EPA guidelines recommend that facilities like Pump Station 2 be equipped with two separate and independent sources of electrical power provided from either two separate utility substations or from a single substation and a plant base generator. The current pump station electrical configuration does not comply with the EPA recommendations. Besides satisfying the EPA guidelines, it is also required that force main surge protection be provided at all times during pump station operation and in the event of a total power failure.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Midway/Pacific Highway Community Plan and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2013 and is scheduled to be completed in Fiscal Year 2014. Construction will begin in Fiscal Year 2015 and is scheduled to be completed in Fiscal Year 2017.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

Duration: 2012 - 2019
Improv Type: Expansion

Water - Distribution Sys - Transmission

Priority Score: 85
Priority Category: Medium
Contact Information: Gamboa, Wendy
 619-235-1971
 wgamboa@sandiego.gov

Description: Replacement of approximately 7.33 miles of existing transmission and distribution mains known as Pacific Beach Pipeline along Ingraham Street, West Mission Bay Drive, Sports Arena Boulevard, Midway Drive, Enterprise Street, Pacific Highway, Kurtz Street, Hancock Street, California Street, West Walnut Avenue, Vine Street, and Kettner Boulevard from the Buena Vista Street and Ingraham Street intersection through the Upas and Kettner Boulevard intersection. The project also includes demolition of the existing Pacific Beach Reservoir, abandonment of existing 16-inch pipeline from this reservoir through Tourmaline Street and Foothill Boulevard, and replacement of adjacent water mains along West Mission Bay Drive from Mission Boulevard through Ingraham Street, along Hancock Street from Estudillo Street through Noell Street, along West Washington Street from Hancock Street through Pacific Highway, and along Anna Avenue from Pacific Highway to Lovelock Street.

Justification: This project is needed to replace cast iron pipe, provide supply reliability to Pacific Beach, improve water quality, reduce energy waste at the Miramar County Water Authority Pumpback facility, reduce peaking problems in the Miramar Water Treatment Plant service area, and to provide supply flexibility (Alvarado vs. Miramar).

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Midway-Pacific Highway, Mission Bay Park, and Pacific Beach Community Plans and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2014 and is anticipated to be completed in Fiscal Year 2015. Construction is scheduled to begin in Fiscal Year 2016 and be completed in Fiscal Year 2019.

Summary of Project Changes: The total project cost decreased by \$355,000 due to revised requirements.

Point Loma Grit Processing Improvements / S00315

Bldg - MWWD - Treatment Plants

Council District: 2	Priority Score: N/A
Community Plan: Peninsula	Priority Category: N/A
Project Status: Continuing	Contact Information: Asgharzadeh, Iraj
Duration: 2001 - 2015	619-533-5105
Improv Type: Replacement	iasgharzadeh@sandiego.gov

Description: This project provides for upgrading the existing grit removal process at the Point Loma Wastewater Treatment Plant which includes new grit agitation blowers enclosed in a sound dampening facility and the associated air piping. Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: The Point Loma Wastewater Treatment Plant has six aerated grit removal tanks. The plant is not achieving desirable grit removal because the existing grit processing equipment is unable to extract fine sand or silt. The grit accumulated downstream of the grit tanks reduces the efficiency of processing equipment and minimizes the biosolid treatment in the digesters.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2001 and was completed in Fiscal Year 2012. Construction began in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2015.

Summary of Project Changes: Total project increased by approximately \$300,000 due to revised requirements.

Pump Station Restorations / ABP00001

Bldg - MWWD - Pump Stations

Council District: Citywide	Priority Score: Annual
Community Plan: Citywide	Priority Category: Annual
Project Status: Continuing	Contact Information: Hwang, Guann
Duration: 2010 - 2021	858-292-6476
Improv Type: Replacement	ghwang@sandiego.gov

Description: This annual allocation provides for the replacement of deteriorated municipal pumping equipment and/or pipeline appurtenances.

Justification: Many existing sewer pump stations have reached or exceeded their anticipated service life. However, because of the widely varying actual lengths of service life, the scheduling of pump station restorations is difficult. This project allows flexibility in replacing deteriorated pumping equipment.

Operating Budget Impact: None.

Relationship to General and Community Plans: This annual allocation is consistent with applicable community plans and is in conformance with the City's General Plan.

Schedule: Projects will be scheduled on a priority basis.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$902,511 from various projects to this annual allocation. The annual project cost for Fiscal Year 2015 decreased by \$750,000 due to revised requirements.

Description: This annual allocation provides for pipeline extensions of the City's Recycled Water Distribution System to serve potential customers adjacent or in close proximity to the existing system.

Justification: This project provides recycled water to customers served by the pipeline extensions.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with applicable community plans and is in conformance with the City's General Plan.

Schedule: Projects will be scheduled on a priority basis.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$567,894 from this annual allocation to Water Main Replacements, AKB00003.

Reclaimed Water System - Pipelines

Priority Score: Annual
Priority Category: Annual
Contact Information: Casamassima, Jennifer
 619-533-7402
 jcasamassima@sandiego.gov

Description: This annual allocation provides for supplying city facilities with the proper connections and metering for the new reclaimed water distribution system.

Justification: The City of San Diego has embarked on an aggressive water reclamation program to provide reclaimed water to large users of potable water for irrigation purposes. This will allow the City to increase its available potable water to serve new potential customers.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with applicable community plans and is in conformance with the City's General Plan.

Schedule: Projects will be scheduled on a priority basis.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$349,077 from this annual allocation to Water Main Replacements, AKB00003.

Reclaimed Water System - Pipelines

Priority Score: N/A
Priority Category: N/A
Contact Information: Azar, Hossein
 619-533-4102
 hazar@sandiego.gov

Description: This project is needed to ensure that spills from the recycled water system flow into the sewer rather than the storm water system. This project would include 15 Pressure Reducing Station vaults to be retro-fitted to divert the drainage inside the vault from the storm drain to the sewer system, as required by the Regional Water Quality Control Board.

Justification: This project is needed to comply with the latest regulatory requirements of the Regional Water Quality Control Board that recycled water be drained to the sewer system rather than the storm drain system when emergency spills or main breaks occur inside the vaults.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the University, Black Mountain Ranch, Mira Mesa, and Scripps Miramar Ranch Community Plans and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2011 and was completed in Fiscal Year 2012. Construction began in Fiscal Year 2013 and is scheduled to be completed in Fiscal Year 2015.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

SBWR Plant Demineralization / S00310

Bldg - MWWD - Treatment Plants

Council District: 8	Priority Score: 77
Community Plan: Tijuana River Valley	Priority Category: Medium
Project Status: Continuing	Contact Information: Asgharzadeh, Iraj
Duration: 2006 - 2015	619-533-5105
Improv Type: Expansion	iasgharzadeh@sandiego.gov

Description: This project provides demineralization of reclaimed water using the Electrodialysis Reversal (EDR) process. The project will relocate two trailer mounted EDR units from the North City Water Reclamation Plant to the South Bay Water Reclamation Plant to reduce the Total Dissolved Solids (TDS) in the reclaimed water. Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: The majority of reclaimed water is used for irrigation. Demineralization will reduce the level of total dissolved solids in the reclaimed water.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Tijuana River Valley Community Plan and is in conformance with the City's General Plan.

Schedule: This design/build contract began in Fiscal Year 2014 and is anticipated to be completed in Fiscal Year 2015.

Summary of Project Changes: Total project increased by \$2.7 million due to bid results based on relocating two Electrodialysis Reversal (EDR) units and building a new demineralization facility.

Contact Information: Asgharzadeh, Iraj
 619-533-5105
 iasgharzadeh@sandiego.gov

Description: This project provides for the construction of a new pump station with a total pump station capacity of 17.2 million gallons per day. This pump station will replace the Scripps Miramar pump as the lead pump to the 1020 zone (Scripps Ranch Pump Station).

Justification: The existing pump station is past its useful lifespan and has become inefficient and unreliable and lacks adequate fire flow capacity.

Operating Budget Impact: None.

Relationship to General and Community Plans: This plan is consistent with the Scripps Miramar Ranch and Miramar Ranch North Community Plans and is in conformance with the City's General Plan.

Schedule: Design/Build contract began in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2015.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

Project Status: Continuing	Contact Information: Hwang, Guann
Duration: 2010 - 2021	858-292-6476
Improv Type: Replacement	ghwang@sandiego.gov

Description: This annual allocation provides for seismic retrofits and upgrades to existing facilities to protect the water system in case of an earthquake.

Justification: Many existing facilities throughout the City have serious structural and seismic deficiencies. This annual allocation provides funding to upgrade these facilities to meet current compliance requirements and guidelines. This project allows City crews the ability to rapidly restore water services to affected areas after a large earthquake.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with applicable community plans and is in conformance with the City's General Plan.

Schedule: Projects are scheduled on a priority basis.

Summary of Project Changes: The annual project cost for Fiscal Year 2015 increased by \$400,000 due to revised requirements.

Contact Information: Phung, Tung
 858-292-6425
 tphung@sanidiego.gov

Description: This project acquires a pipeline that was installed by the Metropolitan Wastewater Department at Dairy Mart Road. It is approximately 4,145 linear feet of 30-inch diameter, ductile iron pipe, polyurethane lined and coated. A cathodic protection system is in place on this project. Subsequently, additional sub-projects will be created to form a distribution system for reclaimed water produced at the South Bay Water Reclamation Plant.

Justification: One of the requirements of the Ocean Pollution Reduction Act Consent Decree Agreement between the City, the State of California, and the Environmental Protection Agency is the beneficial reuse of Title 22 reclaimed water.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the San Ysidro and Tijuana River Valley Community Plans, and is in conformance with the City's General Plan.

Schedule: All pipelines for this project have been completed. The final phase of this project was the installation of a mag-meter assembly to facilitate recycled water billings to the Otay Water District. Project construction began in Fiscal Year 2012 and was completed in Fiscal Year 2013.

Summary of Project Changes: This project is complete and will be closed by the end of the fiscal year.

Public Utilities

Tierrasanta (Via Dominique) Pump Station / S12040

Council District: 7
Community Plan: Tierrasanta
Project Status: Continuing
Duration: 2010 - 2016
Improv Type: Expansion

Bldg - Water - Pump Stations

Priority Score: 96
Priority Category: High
Contact Information: Azar, Hossein
 619-533-4102
 hazar@sanidiego.gov

Description: This project provides for a new station with a total pump station capacity of 13.9 million gallons per day (MGD), and 2,900 feet of 16-inch transmission mains. It will replace the existing temporary Tierrasanta Pump Station and Via Dominique Pump Station, and will serve the Tierrasanta Norte 900 Zone and the Tierrasanta 752 Zone.

Justification: The existing pump stations are past their useful life and are heavily deteriorated and inefficient.

Operating Budget Impact: None.

Relationship to General and Community Plans: This plan is consistent with the Tierrasanta Community Plan and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2013 and is scheduled to be completed in Fiscal Year 2014. Construction will begin in Fiscal Year 2015 and is scheduled to be completed in Fiscal Year 2016.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$6.5 million from this project to Water Main Replacements, AKB00003. The total project cost decreased by \$20,000 due to revised requirements.

Torrey Pines Road/La Jolla Blvd Main Replacement / S00003

Council District: 1
Community Plan: La Jolla
Project Status: Warranty
Duration: 2000 - 2015
Improv Type: Replacement

Water - Distribution Sys - Transmission

Priority Score: 31
Priority Category: Low
Contact Information: Rubalcava, Eric
 858-654-4284
 erubalcava@sandiego.gov

Description: This project provides for the replacement of approximately 31,496 linear feet of the existing 16-inch cast iron pipe along Torrey Pines Road and La Jolla Boulevard.

Justification: This project is necessary to prevent water pipe breaks and to ensure a continuous water supply to the La Jolla community.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

Schedule: This project was scheduled with multiple phases. Construction of the Fay Avenue Realignment segment was completed in Fiscal Year 2002. Construction of Phase I was completed in Fiscal Year 2006. The Pacific Beach Water Main Accelerated Replacement construction was completed in Fiscal Year 2006. Phase II construction was completed in Fiscal Year 2007. Design of the La Jolla Shores Drive 16-inch Water Main Replacement (Phase III) was put on hold in Fiscal Year 2006 at 90% completion due to funding issues. In Fiscal Year 2009 the project restarted, however due to revised project requirements, the design was redone and completed in Fiscal Year 2011. Construction began in Fiscal Year 2012 and was completed in Fiscal Year 2013.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$102,509 from this project to Water Main Replacements AKB00003. This project is complete and will be closed by the end of the fiscal year.

Improv Type: Replacement	ramen@sandiego.gov

Description: This United States International University (USIU) Trunk Sewer project provides for the replacement of the existing 2.2-mile trunk sewer. The trunk sewer starts on the west side of Interstate 15, proceeds east through Scripps/Miramar Horse Ranch and continues east on the edge of Pomerado Road to 500 feet east of Avenida Magnifica.

Justification: This project will provide for the upsizing of the trunk sewer to meet build-out capacity.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Scripps Miramar Ranch and Mira Mesa Community Plans and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2002 and was completed in Fiscal Year 2011. Construction began in Fiscal Year 2011 and was completed in Fiscal Year 2013.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$279,367 from this project to Pump Station Restorations, ABP00001 and \$72,913 to Sewer Main Replacements, AJA00001. This project is complete and will be closed by the end of the fiscal year.

University Ave Pipeline Replacement / S11021

Water - Distribution Sys - Distribution

Council District: 3	Priority Score: 93
Community Plan: Uptown, Greater North Park	Priority Category: High
Project Status: Continuing	Contact Information: Asgharzadeh, Iraj
Duration: 2011 - 2017	619-533-5105
Improv Type: Replacement	iasgharzadeh@sandiego.gov

Description: This project replaces 23,072 linear feet of the existing cast iron University Avenue Pipeline with a new 16-inch distribution line along the entire alignment of the pipeline. This project will connect crossing distribution lines at all intersections, and re-connect all services, including lining or sleeving of freeway crossings, where necessary.

Justification: Cast iron reaches of the University Avenue Pipeline are neither safe nor reliable facilities and may contribute to poor water quality. An active approach is recommended because of high risks and consequences of pipe failure. The University Avenue Pipeline was built in 1912 and lined with concrete in 1974. The replacement of cast-iron pipes is mandated by the California Department of Public Health's (CDPH) Compliance Order.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Uptown and Greater North Park Community Plans and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2014. Construction is scheduled to begin in Fiscal Year 2015 and be completed in Fiscal Year 2017.

Summary of Project Changes: The total project cost increased by \$3.4 million due to revised requirements.

Upas St Pipeline Replacement / S11022

Council District: 2, 3
Community Plan: Uptown, Greater North Park, Midway - Pacific Highway
Project Status: Continuing
Duration: 2011 - 2018
Improv Type: Replacement

Water - Distribution Sys - Distribution

Priority Score: 93
Priority Category: High
Contact Information: Asgharzadeh, Iraj
 619-533-5105
 iasgharzadeh@sandiego.gov

Description: This project replaces 21,000 linear feet of existing cast iron Upas Street Pipeline with a new 16-inch and 30-inch line from 30th and Upas to Upas and Front Street. It will abandon 2,546 linear feet of existing cast iron Upas Street Pipeline from Upas and Front to West Upas and Ibis Street and replace 250 linear feet of cast iron Upas Street Pipeline with a new 8-inch line from West Upas and Ibis to West Upas and Jackdaw Street. It will also abandon 1,902 linear feet of Upas Street Pipeline from West Upas and Jackdaw to the west side of California Street and replace 249 linear feet of cast iron Upas Street Pipeline with new 16-inch lines from the Pacific Beach Pipeline west of California Street to the 12-inch connection west of Pacific Highway.

Justification: This project is needed because the cast iron reaches of the Upas Street Pipeline, and associated Pressure Regulating Stations, are neither safe nor reliable facilities, and may contribute to poor water quality. An active approach is recommended because of high risks and consequences of pipe failure. The Upas Street Pipeline was built in 1940. The replacement of cast iron pipes is mandated by the California Department of Public Health's (CDPH) Compliance Order.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Uptown, Greater North Park, and Midway-Pacific Highway Community Plans and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2014. Construction is scheduled to begin in Fiscal Year 2014 and be completed in Fiscal Year 2018.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.

Water Pump Station Restoration / ABJ00001

Bldg - Water - Pump Stations

Council District: Citywide	Priority Score: Annual
Community Plan: Citywide	Priority Category: Annual
Project Status: Continuing	Contact Information: Hwang, Guann
Duration: 2010 - 2021	858-292-6476
Improv Type: Replacement	ghwang@sandiego.gov

Description: This annual allocation provides for replacing deteriorated pumping equipment and appurtenances or expanding pumping capacities to meet present and future water demands.

Justification: Many existing water pump stations have reached or exceeded their anticipated service life or demands have exceeded their maximum pumping capacity. However, because of the widely varying actual lengths of service life, scheduling for pump station restoration is difficult.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with applicable community plans and is in conformance with the City's General Plan.

Schedule: Projects will be scheduled on a priority basis.

Summary of Project Changes: The annual project cost for Fiscal Year 2015 increased by \$32,233 due to revised requirements.

Water Treatment Plants / ABI00001

Bldg - Water - Treatment Plants

Council District: 5, 7	Priority Score: Annual
Community Plan: Scripps Miramar Ranch, Navajo, Non-City	Priority Category: Annual
Project Status: Continuing	Contact Information: Hwang, Guann
Duration: 2013 - 2021	858-292-6476
Improv Type: New	ghwang@sandiego.gov

Description: This annual allocation provides for upgrades and replacement of the treatment facilities at Alvarado, Miramar, and Otay water treatment plants.

Justification: These improvements are necessary to ensure a reliable water supply to the customers and for compliance with the Safe Drinking Water Act.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with applicable community plans and is in conformance with the City's General Plan.

Schedule: Projects will be scheduled on a priority basis.

Summary of Project Changes: A City Council Action (R-308712) approved the transfer of \$700,000 from this annual to Water Main Replacements AKB00003. The annual project cost for Fiscal Year 2015 increased by \$2.0 million due to revised requirements.

Wet Weather Storage Facility / S00314

Bldg - MWWD - Administration Struct

Council District:	1, 2, 6	Priority Score:	83
Community Plan:	University, Clairemont Mesa, Mission Bay Park, Peninsula	Priority Category:	Medium
Project Status:	Continuing	Contact Information:	Llagas, Margaret
Duration:	1999 - 2017		858-654-4494
Improv Type:	Expansion		mllagas@saniego.gov

Description: This project includes the implementation of the Emergency Live Stream Discharge of reclaimed water from the North City Reclamation Plant during heavy rain events to reduce the capacity demand on the downstream sewer system and facilities. Approximately 34 percent of all Metro Sewer Utility Fund expenditures related to this project are funded by Participating Agencies.

Justification: The facility will reduce the risk of potential wet weather overflows, which may be caused by the capacity limitation of Pump Station 2 during extreme rainfall events.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Peninsula, University, and Clairemont Mesa Community Plans, and Mission Bay Park Master Plan and is in conformance with the City's General Plan.

Schedule: A feasibility study for wet weather intermittent stream discharge was completed in Fiscal Year 2012. Construction of the facilities required for the wet weather intermittent stream discharge is scheduled to begin in Fiscal Year 2016 and be completed in Fiscal Year 2017.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2015.
